

AHO's Vision

AHO is a cost-effective relationship-based community engagement model designed to end youth homelessness in rural and suburban communities nationwide.

"Our deepest wish is for the entire community of Marin County (at every level) including individuals, businesses, agencies, faith communities, organizations and foundations to come together on behalf of our teens and young adults who are homeless. AHO offers a model that provides youth stability, an opportunity to 'beat the odds' and succeed in life."
